

# BOTTLEMASTER<sub>pro</sub>

## WHY?

In industries such as beverages, food, pharmaceuticals, and hospitality, thorough and efficient bottle cleaning is essential.

The **Bottlemasterpro** is particularly designed for different types of bottles in restaurants and hotels, ensuring spotless cleanliness and optimal hygiene.

The **Bottlemasterpro** has been specially developed for various types of bottles and ensures immaculate cleanliness and optimum hygiene. With the Bottlemasterpro, we offer a state-of-the-art solution that improves hygiene, increases productivity and reduces operating costs.

## USER-FRIENDLY

Equipped with the EasyHandling Click System, Bottlemasterpro allows you to convert your dishwashing machine into a bottle washer in seconds – no complex installation needed.

## ROBUST AND DURABLE

Constructed with fiberglass combined with plastic for strength and lightness, ideal for heavy-duty, high-volume environments.

## MAXIMUM EFFICIENCY

Clean up to 8 bottles simultaneously, each with a diameter of 90 mm and a height of 300 mm. The system guarantees fast, thorough cleaning with minimal water usage.

## SMART

The 2025 range of machines offers programs for different bottle types. An intensive wash and rinse program tackles dirty bottles, while a quick-rinse option is ideal for water bottles. These tailored settings ensure optimal cleaning for every need.

| PROGRAMS   | Duration                             |            |
|--|--------------------------------------|------------|
| <b>B2</b>  | bottles with washing and rinsing     | 80 seconds |
| <b>B1</b>  | bottles with rinsing (Water bottles) | 45 seconds |

### technical data

|                                  |     |      |
